EPA-R1-2018-004976	Christopher J. Punch		3/1/2018 0:03	<p>February 28, 2018 Dear FOIA Officer Hi I have a basic request, on this issue if Environmental Protection Agency Region 1 received and found unnatural light enhancement or magnification, public transit station and in the area near the station location below. Based on my time parking at the location and seeing others cars this issue of unnatural solar enhancement does not appear to effect autos made by other manufactures. Walking in the area on a personal level I have seen no enhancements beyond natural human activity. Second are there any reports for cars made or marketed by the entity known as American Honda, have melting of parts or components there are exposed to the outside natural environment with normal unmagnified or amplified natural sunlight. Is there an industry standard or suggested standard for exterior plastic components and would melting in the period of 1, 2 or 3 years or 20,000 miles of operation be expected for a car made for sale in the United States? Would melting of plastic components cause distribution of unknown particles into the atmosphere and is there a method to report this EPA and has American Honda filed any such report , details of the report are not requested . Dates 9/1/2015 through 2/22/2018 Readville Commuter Rail Station Lots A, B and C 1664 Hyde Park Avenue in Hyde Park, MA 02136 I would like to note that I have made similar requests with a negative response from other government agencies that have jurisdiction on various enforcement Thank You</p> <p>Christopher Punch</p>

				<p>I do have one correction. I had stated that the Central of Georgia RR/Bernuth Lembke Site, located off Kinsey Road at GA Ports Authority Gate #2 in Savannah, Georgia 31401 was not the same as the Bernuth Lembcke Co. Superfund Site located at the North end of E Lathrope Ave, Savannah, GA 31401. However, I have learned that the 2 addresses may in fact be for the same site. I hope this helps in the FOIA search.</p>

EPA-HQ-2018-005003	Caroline Haskins	The Outline	3/1/2018 16:03	<p>I apologize for the mistakes, and appreciate your assistance. I hereby request all internal documents from Feb. 10 2017 to present — including any memos, evaluations, decisions, directives, emails, and digital correspondence — that mention nanoparticle research, life-cycle analyses, and nanomaterials in private industry. These topics and terms were mentioned in the 2018-2022 EPA Strategic Plan released on Feb. 12, 2018 with relation to chemical safety, use, and disposal on the state and tribal level.</p>

To Whom It May Concern: This is a request under the Freedom of Information Act. I hereby request the following records: It is the requestors understanding that EPA regions have been instructed to handle FOIA requests that include records involving EPA political appointees, by routing such requests to EPA HQ for processing. I therefore request any guidance or other instructions provided to an EPA region by EPA HQ about the processing of FOIA requests that include political appointees, or any other records which outline this approach. A search may be limited to records created or transmitted between January 20, 2017 and February 21, 2018. The requester is entitled to a fee waiver because he is a member of the news media, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since the requester has the ability and the intention, through the means described below, to effectively convey information contained within the requested records to a broad public audience. Requester is an investigative journalist and the director of Documented, an investigative watchdog and reporting group that explores the relationship between industry and government. Nick Surgey is a Senior Fellow at the Center for Media and Democracy and writes for the Intercept. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Nick Surgey

I request copies of all correspondence received by EPA from governor(s) or sent by EPA to governor(s) on or between Feb. 1 and Feb. 28, 2018

EPA-HQ-2018-005024	R A. BOURQUE		3/2/2018 2:03	<p>What is the EPA and other agencies [and Congress] doing to preserve [i.e. not shred] documents that are bound to be subject to a subpoena once the Democrats take back a majority in Congress? For example, former Watergate prosecutor Jill Wine-Banks explained the parallels to MSNBC's Chris Hayes: John Dean was an associate deputy Attorney General and White House counsel before pleading guilty to obstruction of justice. Dean ended up serving four months in federal detention and was disbarred as an attorney. "Nunes co-conspirator on the Hill is his staffer Kashyap Patel," Dean charged. Patel is the lead Nunes staffer behind the memo. Patel was issued a rare "order of ineptitude" from a federal judge in 2016. "They both belong in jail for betraying national security with their scam," he continued. Dean's conclusion that prison is necessary for the Nunes memo is notable because of Dean's role crafting a similar memo. Former Watergate prosecutor Jill Wine-Banks explained the parallels to MSNBC's Chris Hayes. "First of all, Richard Nixon asked John Dean to write a whitewash memo, saying he had fully investigated the accusations and that no one in the White House or on the Committee to Re-Elect the President was involved," Wine-Banks explained. "That's what's this memo was. It is a whitewash," Wine-Banks said.</p> <p>The March 1, 2018 letter Kerry Neal, deputy director of the EPA's Office of Grants and Debarment, sent to attorneys for the Bay Journal saying that the grant for the Bay Journal would be restored. Dear Sir or Madam: This is a request under the Freedom of Information Act, §2.2-3704 et seq. I am writing to request documents concerning the science that has developed surrounding the effects of air pollution and it's effects on climate change from the National Service Center for Environmental Publications (NSCEP). I am a concerned Master's of Social Work student at Virginia Commonwealth University. and this request is made for scholarly purposes. If there are any fees for searching or copying these records, please inform me if the cost will exceed \$0 before charging me. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. The Virginia Freedom of Information Act requires a response to this request be made within five business days. If access to the records I am requesting will take longer than this amount of time, please contact me with information about when I might expect copies or the ability to inspect

EPA-R3-2018-005080	Ylisha Morgan		3/5/2018 18:03	the requested records. Sincerely, Ylisha

Reuters is seeking any correspondence, call records and meeting details between May 2017 and today related to Administrator Pruitt's plan to launch a public debate between scientists who are climate change skeptics and scientists who are believers that human beings cause climate change, also known as a "red team blue team" exercise. Mr. Pruitt said he intended to launch these debates for public consumption at the beginning at 2018 but so far there has been no update about the status of these debates. We are looking for information about who was invited to participate in such debates, any formal planning for launching -- or cancelling - these debates and any explanation about the process of recruiting both "red team" and "blue team" scientists to participate. We would also like information explaining whether these debates would inform future plans to re-examine the

Dear Sir/Madam: I am requesting an opportunity to inspect or obtain copies of public records that relate to any and all asbestos abatement, removal, demolition, cleanup, or other asbestos-related work (including but not limited to any agency assessments, monitoring, inspections, investigations, consultations, medical surveillance, site violations, recommendations, notices, orders, or fines), conducted at or related to the Northport Power Station in Northport, NY from 1966 until present. Please provide:

- Any and all records concerning asbestos abatements, remediation, inspection, removal and/or containment work, air monitoring, and any projects concerning any asbestos present at, reported by, distributed to, monitored, maintained, replaced, inspected, remediated, contained, abated, and/or removed at the Northport Power Station in Northport, NY from 1966 until present; and
- All correspondence to or from the Northport Power Station in Northport, NY (and/or its agents or its related corporate entities, including but not limited to National Grid, the Long Island Lighting Company, and the Long Island Power Authority) concerning asbestos at the Northport Power Station in Northport, NY from 1966 until present (this includes any legally-required documents that were submitted concerning the Northport facility).

If there are any fees for searching or copying these records, please contact me if the cost will exceed \$250.00. If access to the records I am requesting will take longer than 20 business days, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. The FOIA requests below are for written documents related to the attached Administrative Order on Consent, In the Matter of Cherokee County Site, Baxter Springs and Treece Subsites, Cherokee County, Kansas, U.S. EPA Docket No. VII-90-F-0010, Region VII, (May 8, 1990) (Consent Decree). The Consent Decree states in part on pages 41 and 42: ARTICLE XXVI: TERMINATION AND SATISFACTION OF ORDER 96. The provisions of this Consent Order shall remain in full force and effect until completion of all work required by this Consent Order. Respondents shall notify EPA in writing at the time they believe all such work has been completed. Within a reasonable time, after receipt of this notice, EPA will advise Respondents in writing of its determination that all work or any portion of the work required by this Consent Order has been completed and/or if any further actions are necessary to complete the required work. The provisions of this Consent Order shall terminate upon Respondents' receipt of written notice from EPA that all the requirements of this Consent Order have been successfully completed. Under the provisions of FOIA, please provide the following, preferably in digital format, related to the foregoing Article XXVI, Paragraph 96: a. All written notices from Respondents to EPA at the time Respondents believed all such work under the Consent Decree had been completed. b. All written determinations by EPA that all work or any portion of the work required by the Consent Order had been completed and/or if any further actions were necessary to complete the required work. c. To the extent not already provided under the prior requests, all written notice from EPA that all the requirements of this Consent Order have been successfully completed. Please do not hesitate to contact me by phone or e-mail with any questions concerning this request.

Please call me in regard to safety measures and practices performed in RI hospitals. There have been deaths resulting herein due to the intent to harm and purposely harm with death as the outcome. How? The sprinkler system with purposeful intention by destruction of water supply line connected to a toxic gas and substance of such in conjunction with water line hose alternative? But an electrical inspector confirmed so with one hospital as you know already. Please see 2015 case. HVAC systems need to be checked too. Particularly on MedSurge and Psych Floors please. As evidenced by symptoms and cause of fatality among some and with an alteration of thought process along with physical symptoms that are proved by lab results and objective and definitive diagnostic testing too. Basically, if you could please check the hospitals I have unfortunately and unnecessarily have had the pleasure to stay with, it would be tremendously appreciated. Thanks! 			Re: Freedom of Information Act Request: Proposed Rules Dear Sir or Madam: The Southern Environmental Law Center (SELC) requests all documents, including correspondences, relating to all communications between the U.S. Environmental Protection Agency Headquarters office and Attorney Generals from the 50 states concerning the proposed suspension rule (83 Fed Reg. 5200, Feb. 6, 2018), proposed replacement rule (Step 1)(82 Fed. Reg. 12532, Mar. 6, 2017), and the anticipated replacement rule (Step 2). For the purposes of this request, the term "documents" includes all written, printed, recorded or electronic: materials, communications, correspondence, memoranda, notations, copies, diagrams, charts, maps, photographs, tables, spreadsheets, formulas, directives, observations, impressions, contracts, letters, messages and mail in the possession or control of the Environmental Protection Agency. FOIA directs a responding agency to make a "determination" on any request within twenty (20) working days of receipt. See 5 U.S.C. § 552(a)(6)(A)(i). FOIA also requires the release of all reasonably segregable portions of a document that are themselves not exempt. 5 U.S.C. § 552(b). Should our requests be denied, we request that you inform us of the grounds for denial and the specific administrative appeal rights which are available. See 5 U.S.C. § 552(a)(6)(A)(i).

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, as amended, we request the following records that are in the possession of the US Environmental Protection Agency ("EPA"). The following request is made in the context of Excelsior Mining's application for, and the EPA's consideration of an underground injection control permit in Cochise County, Arizona (the "UIC Permit"). Specifically, we request the following records: All records of public comments related to the UIC Permit that have been received by EPA but not yet transmitted to this office in response to our previous FOIA requests (the most recent of which was request #004553). For purposes of this request, "records" means information of any kind, including writings (handwritten, typed, electronic or otherwise produced, reproduced or stored), draft documents, letters, memoranda, correspondence, notes, telephone conversations, telefaxes, e-mails, documents, data bases, drawings, graphs, charts, photographs, minutes of meetings, meeting logs, call logs, electronic and magnetic recordings of meetings, and any other compilation of data from which information can be obtained. All of the foregoing are included in this request if they are in the possession of or otherwise under the control of EPA, whether they are located in the main office or in regional offices. We agree to pay any fees associated with this request. Please feel free to call me at

In responses to previous FOIA requests, I have received correspondence logs from Congress to the U.S. EPA identifying specific pieces of correspondence by control number and congressional office. I am now requesting specific pieces of correspondence identified in those correspondence logs by their control number and congressional office. Please include attachments, enclosures or any other documents that were provided with the piece(s) of correspondence sent to your agency in its original form. In addition, please provide all direct agency responses to the requested piece(s) of correspondence. We request the following piece(s) of correspondence listed by their control numbers and congressional offices below: AL-17-001-1514, Barrasso AL-17-001-0949, Pence If possible, I would prefer to receive the largest number of records or documents in electronic form. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. Please send me all the information you have for this CERCLIS Archive listing: NVD981989908, Railroad Roundhouse. This site is located in downtown Las Vegas, NV. I believe the remains of the roundhouse which disappeared before 1965 are buried in an unremediated tar/waste pit that is located beneath the current Clark County Government Center building location: 500 Grand Central Parkway, Las Vegas, NV 89106. The waste pit was covered by 1971 and was not addressed in the NDEP oversight of the remediation and dismantling of the rail yard in the late 1980s and early 1990s. The Clark County Government Center was constructed in 1993 without a vapor barrier. There are hundreds of people who work in the government center building who have been chronically exposed and have a multitude of railroad diseases. I have additional photos and evidence that the half mile long 150 ft wide 10-15 ft deep waste trench where UPRR dumped their machine shop waste from 1904 to 1952 was lit on fire and the burned bunker fuel (and other chemical remains) were scooped up and also deposited in the pit that lies beneath the Clark County Government Center. This is an emergency situation that requires immediate attention.</p> <p>We would like to request any information your office has regarding any environmental documents, underground storage tanks (USTs) or hazardous materials for the properties listed below. EPA-HQ-2018-005348	Emily McKinney	Frost Brown Todd LLC	3/12/2018 18:03	I am requesting a copy of all correspondence to or from the Office of Land and Emergency Management (Office of Solid Waste and Emergency Response), or any other EPA Office that may have such records, regarding deadlines and requirements related to the CCR Rule, 40 CFR 257.1 et seq., from April 17, 2015 to the present.
EPA-R9-2018-005349	Jasmin Lombardi	Berkes Crane Robinson & Seal, LLP	3/12/2018 18:03	We are interested in obtaining a copy of the Consent Decree with Powerine Oil Company lodged on 11/7/2007 [with respect to Case No. 2:04-cv-06435-CBM-JWJ , filed in the US. District Court for the Central District] , with all of the attachments and exhibits thereto. The proposed Consent Decree was ultimately signed as a Consent Judgment on 2/11/2008. Our office was able to obtain a copy of the actual Consent Judgment from the District Court. However, neither the Consent Judgment nor the Proposed Consent Decree lodged in 11/2007 with the District Court contain the exhibits as referenced in the Consent Decree, including the attachments regarding certain information provided by the Settling Defendants. As indicated in the Consent Decree, the amount of the proposed settlement was “based upon financial information provided by Settling Defendants indicating a limited ability to pay.” There is a specific reference to attachments/exhibits, etc. that appears to comprise this information. As clarification, we are interested specifically in obtaining copies of the attachments/exhibits as submitted by the Settling Defendants in connection with the Proposed Consent Decree. [See Pgs 55-57 of the Consent Decree document attached herein for your reference, which lists those specific attachments we are interested in obtaining] We note that there is no indication that the referenced documents were submitted as confidential.
EPA-HQ-2018-005358	Abraham Lustgarten	ProPublica	3/12/2018 19:03	Pursuant to FOIA, would like to request copies of all correspondence, including letters, emails and voice recordings not already published or made available on the EPA website concerning the EPA's evaluation of the health risks of exposure to the contaminant RDX, (https://cfpub.epa.gov/ncea/iris/iris_documents/documents/subst/0313_summary.pdf) from January 1, 2000 to Oct. 31, 2016. The response should exclude comments formally submitted to the EPA as part of the IRIS review process, and which are otherwise available online, as well as any other documents and information already published on the EPA's IRIS website. It should include all other internal and external communications not previously published for the public on the EPA website. I'd like responsive materials delivered on a rolling basis as they become available, and sent to me on a DVD via mail, as download of materials from the FOIAonline website is unreliable and frequently does not work. This request is a refiling of a previously withdrawn request, EPA-HQ-2017-000877 made to include my request for a fee waiver. Since substantial research has already been completed to answer the original request, it is my hope this new request can receive a response quickly.

EPA-HQ-2018-005399	Jarrett Renshaw	Reuters	3/13/2018 17:03	<p>Hello, my name is Jarrett Renshaw, an energy reporter at Reuters. I am requesting the following records under the Freedom of Information Act. The U.S. EPA, led by Mr. Pruitt, has been actively engaged with the White House over the issue of potential changes to the U.S. Renewable Fuel Standard. Mr. Pruitt has attended several high profile meetings at the White House since the beginning of the year, according to multiple news reports, including those from Reuters. I am requesting any documents provided by the EPA to the White House since Jan. 1, 2018 regarding the U.S. Renewable Fuel Standard, RINs or related topics. I am also requesting any correspondence, electronic or otherwise, between the EPA and the White House since Jan. 1, 2018 regarding the U.S. Renewable Fuel Standard, including related to the well-publicized meetings. Thanks for your time and attention.</p>
EPA-HQ-2018-005398	Jarrett Renshaw	Reuters	3/13/2018 17:03	<p>Hello, my name is Jarrett Renshaw, an energy reporter at Reuters. I am making a request for records under the Freedom of Information Act. On March 12, 2018, the U.S. EPA and a refiner Philadelphia Energy Solutions (PES) reached a settlement agreement regarding the refiner's outstanding compliance obligations under the U.S. Renewable Fuel Standard. I am requesting any records provided to the EPA by Philadelphia Energy Solutions as part of the settlement discussions, along with any and all correspondences, electronic and otherwise. The refinery filed for bankruptcy in Delaware Federal Court (#18-10122) in January, but settlement negotiations may have started before then. Here is a link to a story on the settlement. https://af.reuters.com/article/africaTech/idAFL1N1QU1W9 I am also requesting any correspondence, electronic or otherwise, between White House staff and the EPA regarding the PES settlement. If you have any questions, or need any clarifications, please don't hesitate to contact me.</p> <p>Thanks for your time. I have attached a copy of settlement agreement.</p> <p>To whom it may concern: I would like to request for a Jurisdictional Determination issued on 2 freshwater wetlands on 200 Dosoris Lane, Glen Cove, NY 11542 home to several native wildlife and plants. The current owners are building 40 homes and have already started to fill and dump on these wetlands. These 2 wetlands are listed in the National inventory of freshwater wetlands but are neither protected by the EPA of the DEP. I am told that this JD expired on Jan 2018 and would like to seek protection of these 2 wetlands. Please let me know if you need further information. Thank you. Gigi Ferrante</p>

				<p>**Re: SPACEPORT CAMDEN in CAMDEN CO., GA** Under the Freedom of Information Act (FOIA), 5 U.S.C. &sect; 552, as amended, the Southern Environmental Law Center (SELC) requests any and all documents in the possession or control of the U.S. Environmental Protection Agency (EPA) that relate to the Draft Environmental Impact Statement for Spaceport Camden in Camden County, Georgia, as prepared by the Federal Aviation Administration (FAA). We seek all documents in the file, including drafts and emails between EPA staff and FAA staff. FOIA directs a responding agency to make a "determination" on any request within twenty (20) working days of receipt. See 5 U.S.C. &sect; 552(a)(6)(A)(i). FOIA also requires the release of all reasonably segregable portions of a document that are themselves not exempt. 5 U.S.C. &sect; 552(b). Should our requests be denied, we request that you inform us of the grounds for denial and the specific administrative appeal rights which are available. See 5 U.S.C. &sect; 552(a)(6)(A)(i). SELC is requesting photocopies or electronic copies without charge, or at a reduced charge, because reduction or waiver of fees would be in the public interest. A disclosure is in the public interest if (1) it is likely to contribute significantly to public understanding of the operations or activities of the government, and (2) it is not primarily in the commercial interest of the requester. The public interest standard of the fee waiver provision of the FOIA should be "liberally construed" in favor of waivers. McClellan Ecological Seepage Situation v. Carlucci, 835 F.2d 1282, 1284 (9th Cir. 1987); Pederson v. Resolution Trust Corp., 847 F. Supp. 851, 855 (D. Colo. 1994); Etlinger v. FBI, 596 F. Supp. 867, 872 (D. Mass. 1984). The goal of the statute is to avoid the "roadblocks and technicalities which have been used by various Federal agencies to deny waivers...." Pederson, 847 F. Supp. at 855. Thank</p>

EPA-R7-2018-005475	Chloe Winslow	University of Utah Chemical Engineering Department	3/14/2018 22:03	<p>My name is Chloe Winslow and I am a chemical engineering student at the University of Utah. In my Communication and Chemical Engineering Safety class we are required to write a case study report on one of the superfund sites that were given priority this year for our final project. The purpose of this class is to learn how to handle community outrage by mitigating the discrepancies between perceived hazards and actual risks, how to write documents (like reports, memos, emails, etc.) to convey technical information, and how to alert an apathetic community to real hazards. My group chose the Westlake Landfill as our research topic and our main focus for the report is to study how the recent Proposed Record of Decision Amendment released on February 6, 2018 affected the public opinion on the risks and hazards associated with this superfund site. Our case study presentation is on April 11th and the final report is due April 27th. The public comment period was originally scheduled to end on March 22, but has been extended to April 23. The Responsiveness Summary will not be published before our report is due. Is there any way we could have access to the public comments about the proposed remedial action before April 27th, and if at all possible, before April 11th so we can analyze the public opinion first hand to use in our case study? Having to rely solely on media reports of community outrage will add a lot of bias to our report, and since this is for academic purposes we need to minimize bias as much as possible. Having access the public comments will allow us to get the most accurate and current understanding of how the community feels about the perceived risks of the Westlake landfill, and how they think the proposed remedy will reduce these risks.</p>

This is a request for records under the Illinois Freedom of Information Act. I am requesting copies of the following public records. I will accept either digital copies or paper ones. Please provide any and all documents and correspondences in the USEPA's possession from between 1/1/1988 and 12/31/2000 pertaining to two sites in Chicago, IL that are referenced by one or more of the key words or identifiers below. I am requesting documents including, but not limited to, all letters, email, documents, official notes, inspection reports and communication in the USEPA's possession. Site #1 Identifiers: 1) MCC Site 2) MCC Construction Site 3) IL000098302 4) IL0000098302 5) 2100-2130 S. Kostner Ave. 6) 2130 S. Kostner Ave. Site #2 Identifiers: 1) 915 S Kildare Ave. 2) 916 S Kildare Ave. 3) 4300 W Roosevelt Rd. 4) 4343 W 5th Ave. 5) KrisJon Again, these two sites are both within the City of Chicago, Illinois. From my reporting, these records would likely have funneled through the Region 5 office, but I am also interested in any correspondence then went through the national office. The site at one point received funding through CERCLA but may have been on the US EPA's radar before then. Again, I am interested in any and all documents relating to either site. See attached documents as an example of what I am looking for. If your agency typically charges fees for document search or duplication, we request that the fees be waived, as disclosure of this information is in the public interest. That being said, if the above search will still incur a cost, please provide an itemized list of the expenses before completing the records request. I ask that you email the records directly to me at wsayre@USAToday.com or mail copies of printed records to: Wilson Sayre 205 N. Michigan Ave. Suite 1600 Chicago, IL 60601 Please contact me with any questions regarding this request at (312)343-0072 or wsayre@USAToday.com.

EPA-HQ-2018-005552	Brendan Kapoor	Metropolitan Water District of Southern California	3/16/2018 18:03	<p>I am an intern with the Metropolitan Water District of Southern California doing research on the data behind California's 12-10-10 log removal requirement in its regulations for Recycled Water, in order to write a report. I am looking for the Appendices to the Economic Analysis for Final Ground Water Rule Volume II (M-U), specifically Appendix N from that document. On the EPA website, I have found the Appendices to the Economic Analysis for Final Ground Water Rule Volume I (A-L). Unfortunately, this is the only document listed, and it does not include the document I am searching for. I am certain the Volume II must exist since this other document is labelled "Volume I", and because the Economic Analysis lists and cites Appendix N in its table of contents and in its body. The Volume II and Volume I are not included in the Economic Analysis document on NEPIS.</p>

Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq., I request access to and copies of all logs of congressional correspondence regarding correspondence to or from any officials at National FOIA Officer and Rep. Keith Rothfus between January 1, 2013, and March 15, 2018. Please search for responsive records regardless of format, medium, or physical characteristics. Where possible, please produce records electronically, in PDF or TIF format, via email or CD, particularly if providing the information reduces the time or expense involved. If your office cannot honor this preference, I am willing to discuss the most cost-effective and efficient means of duplication. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$200. However, please notify me prior to your incurring any expenses in excess of that amount. If any records are withheld or redacted, I request that you state the specific legal and factual grounds for withholding any documents or portions of documents. Please identify each document that falls within the scope of this request but is withheld from release and provide an index of those documents as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. I write to request access to and a copy of all agency records relating in whole or in part to communications between the Environmental Protection Agency Senior Counsel and Associate Administrator Samantha Dravis and the Republican Attorneys General Association, the Rule of Law Defense Fund, Freedom Partners, Americans for Prosperity, Generation Opportunity, Libre Initiative, American Enterprise Institute, Concerned Veterans for America, and the Sutherland Institute. This request includes both Dravis' communication with those organizations and any other records created or retained by Dravis with respect to those organizations. The scope of this request should include, but is not limited to, emails and attachments, both sent and received, on either official or personal email accounts; materials accessed or exchanged by other applications, such as Briefing Room, Google Docs, Dropbox, or MediaFire; all draft records, notes, minutes, scheduling records; text messages or other correspondence (internal and external); and all other records generated between February 1, 2017 and the date of receipt of this request. Please designate the scope of communications searched in your response. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. Please provide a response within ten (10) business days. If you choose to deny any portion of this request, please give a written explanation for the denial as either non-responsive or subject to a specific statutory exemption(s), and provide an index of records or categories of records that have been withheld. Also, please provide all segregable portions of otherwise exempt material. Thank you for your assistance.

- Any individual who has held the position of Senior White House Advisor from February 19, 2018 to February 21, 2018, including – but not limited to – Donald Benton

I am not a commercial requester. I understand that there might be costs associated with this request. I would request a waiver of fees, and ask for you to contact me by e-mail at researchinfo@dnc.org before incurring charges if this request will be in excess of \$50. My preferred reproduction format is an electronic file e-mailed to me at researchinfo@dnc.org. If this is not possible, I request that you provide access to these records electronically via an FTP site, or mail electronic copies of the records to me on removable media, such as a CD or flash drive. If none of these delivery methods are feasible, I request that you mail paper copies of the records to me at the address provided above. I would appreciate your communicating with me by e-mail at researchinfo@dnc.org rather than by mail or telephone, if you have questions regarding this request. If all or any part of this request is denied or redacted, please cite the specific exemption which you believe justifies your redactions or refusal to release the information and inform me of your agency's administrative appeal procedures available to me under the law. 				<p>The Center requests the following from EPA Office of Pesticide Programs, from February 21, 2018 to the date EPA conducts its search for this request: 1. All applications and/or requests for exemptions under Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. 6 &sect;136 et seq. ("FIFRA") for the use of the pesticide sulfoxaflor, and/or any pesticide products containing sulfoxaflor; and 2. All records explaining the basis for any final decisions on any applications and/or requests for emergency exemptions, including but not limited to EPA's notices to applicants of EPA's decisions. As discussed between Sharon McBride and Margaret Townsend in email communications on February 13 and 15, 2018, the Center intends to submit periodic requests for these records. The Center previously submitted requests EPA-HQ-2018-003015 and EPA-HQ-2018-004240. EPA provided its final responses and closed these requests on March 13, 2018. Now that EPA is familiar with the records the Center is seeking, it is our hope that EPA will be able to comply with the FOIA deadlines for this request for similar records from February 21, 2018 to the date of search.</p>

This is a request under the Freedom of Information Act. I am a reporter with The Center for Investigative Reporting (henceforth "CIR") seeking all documents and records regarding conversations between the White House the EPA about sharks. I am seeking all communications (both written and electronic) between White House officials and the EPA about sharks. I am also seeking all internal EPA communications, documents and records about White House's involvement in specifically shark-related regulatory decisions. Based on recently published news stories, it seems like President Trump has a complicated relationship with sharks. See, for example, this Quartz story entitled, "Trump told Stormy Daniels he wants all sharks to die. Here's why that's a bad idea" (<https://qz.com/1237378/trump-told-stormy-daniels-he-wants-all-sharks-to-die/>). The purpose of this FOIA request is to determine if the president's personal feelings about sharks has been translated into public policy or regulatory action. Please limit the dates for this search from between January 1, 2017 and the date when the search for responsive records is carried out. Please notify me before incurring any photocopying costs over \$100. Please furnish all responsive records in electronic, searchable format delivered to my email address asankin@revealnews.org. If that's not possible, please send records paper printouts sent to the following address: Aaron Sankin Center for Investigative Reporting 2016 14th Ave. W. Seattle, WA 98119 All correspondence regarding this request can be directed to me at asankin@revealnews.org.
